

ORION WEBINARS

Far-Right Online Ecosystems

JUNE 27, 2022

Orion Policy Institute hosted a live webinar on far-right online ecosystems. Our Senior Fellow Suat Cubukcu moderated the session.

Panelists Stuart Macdonald and Maura Conway from Swansea University and author J. M. Berger discussed their recent research on European far-right online ecosystems published by [The RESOLVE Network](#). “The research report examines the outlinking activity of identified pro-far-right users among the followers of the official Twitter accounts of two prominent far-right European political parties, Germany’s *Alternative für Deutschland* (AfD) and France’s *Rassemblement National* (RN).”
