

ORION WEBINARS

Technology and Terrorism: Understanding the Threat Landscape

SEPTEMBER 16, 2024

Orion Policy Institute hosted a live webinar on Friday, September 27, 2024, between 11 AM – 12:30 PM (EST) titled, “Technology and Terrorism: Understanding the Threat Landscape.”

The discussion evolved around how terrorists and terrorist organizations can weaponize artificial intelligence and other information technology products, emerging threats, and the role of governments, international bodies, and private companies in fighting these threats.

The panelists were:

- 1- Kat Parsons, Research Associate, National Counterterrorism Innovation, Technology, and Education Center (NCITE)
- 2- Neil Saul, Program Manager, Prevention Practitioners Network
- 3- Jarod Simmons, Founder & COO, Base 10 Technology, LLC
- 4- (Moderator) Alex Harlan, Research Associate, Orion Policy Institute
